

FOR IMMEDIATE RELEASE**NATIONWIDE BOILER INC. OBTAINS GENERAL
ENGINEERING CONTRACTOR'S LICENSE**

Fremont, California, November 23, 2016.....Nationwide Boiler Inc., the largest industrial boiler rental and sales company west of the Mississippi, recently obtained a Class A General Engineering Contractor's License for the State of California. The company has held a C-4 Contractor's License for Boilers, Hot Water Heating and Steam Fittings for roughly 35 years.

The C-4 Contractor's License allows Nationwide Boiler to install, service, and repair firetube and watertube power boilers, high and low pressure hot-water heating systems, steam fittings and other associated equipment. The newly obtained General Contractor's license provides credentials for Nationwide Boiler specializing in engineering knowledge and skill in a number of different areas. The General Engineering Contractor's License will permit the company to bid public jobs directly without having to involve another general contractor.

For fifty years Nationwide Boiler Inc. has provided temporary and permanent steam boiler systems and turn-key solutions to customers in California and worldwide. With headquarters in Fremont, CA, the company has a large inventory of trailer-mounted watertube boilers, mobile steam plants, new and reconditioned firetube and watertube boilers, EconoStak Economizers, CataStak™ SCR systems, and other boiler related equipment. Visit their website at www.nationwideboiler.com for more information.
