

IECT/BOMP Joint Conference

Achieving Balance:

Optimizing Industrial Energy While Meeting Environmental Challenges

A Virtual Conference in 13 Two Hour Blocks
July 14, 21, 22, 23, 28, 29, & August 11, 2020

This valuable conference is for industrial energy producers who need an update on environmental regulations and their effect on operations. While addressing the complexity of the regulatory requirements, attendees will also learn about compliance against the backdrop of the COVID-19 pandemic and within the context of broad sustainability concerns.

Keynote Speakers:

Bob Inglis - Former U.S. Congressman
(1993 – 1999, 2005 – 2011)
Executive Director, republicEn.org

Kevin Culligan, EPA
Associate Director - Office of Air & Radiation

Sessions Include:

- Environmental Rules, Regulations and Implementation in the Industrial Sector
- Fundamentals of Testing and Monitoring
- Maintenance Operations
- Emission Control Technology

Conference Chairs:

Kristine Davies, *Principal Consultant* – Trinity Consultants

Gary Merritt, *Manager Environmental and Regulatory Affairs* – NSG/IPAC
